

Serial No. 10/634,383

**Amendment to Specification:**

[0023] The example diverter includes a central wall 68 having arcuate segments and is arranged between the cylindrical wall 60 and the side wall 66 to provide additional support for the diverter 42 against the housing 12. The illustrated central wall 68 and side wall 66 may provide support edges 70 that ensure that the end of the inlet tube 18 within the housing 12 is not blocked by the diverter 42. The ~~central~~ central wall 68 may be of a different configuration than shown or eliminated entirely.
